

Design & Access Statement

The Old Bank, Albion House, Market Place, Camelford PL32 9PF

Until last year, 22-24 Market Place, Camelford housed the NatWest Bank. They had installed a push-panel disabled access door, which is still working, so access will continue as before.

Immediately outside the building are 2 disabled parking spaces, maintained by Camelford Town Council, and is another car park near by virtually on the level. All parking in Camelford is free (though this may change in 2019).

Footfall into the new building is likely to be quite low, especially in the early stages, so we do not anticipate any problems in continuing with access arrangements as before. Since opening, we have been able to install a disabled access toilet off the main room, although the doors between them are not automatic.
